Experience

Doka USA

Yard Laborer

Commerce City, CO

Jul 2026 - Aug 2026

- Supported Returns department by cleaning, repairing, and counting hardware such as panels, struts, and frames
- Improved efficiency with Lean principles, taking initiative to fix damaged or missing equipment including banders, item counters, scrapers, and power tools
- Tracked inventory with Doka tablets and software (Returns, Items, and Orders apps)

Scout Clean Energy

Intern, East Region Development

Boulder, CO

Oct 2025 - May 2026

- Supported environmental, permitting, real property, and engineering activities for more than 1 GW of early- and late-stage wind, solar, and battery projects across MISO
- Managed consequential land campaign, real property diligence, and title curative efforts, ensuring precision and accuracy to avoid unintended consequences and capture missed opportunities
- Visited sites for community and landowner engagements, fielding concerns and communicating project benefits
- Built Salesforce, Smartsheet, Outlook, and GIS tools to track project metrics and automate repetitive processes
- Used biology and ecology background knowledge to ensure sustainability and compliance of projects in agricultural environments

National Renewable Energy Laboratory

Multiple Post-Undergraduate Research Internships

Golden, CO

Sep 2024 - Dec 2025

- Aided industry-leading research in biofuels, solar, batteries, plastics, REE recycling, and quantum imaging
- Worked with PMs, industry partners, and researchers to meet project objectives and communicate outcomes
- Developed internal laboratory tools, including a data analysis app, to streamline processes and reduce labor costs

Irondale Woodworks

Cabinetmaker

Phoenicia, NY

Jun 2024 - Aug 2024

- Helped design, build, finish, and install custom cabinetry for kitchens, laundry rooms, closets, and bathrooms
- Used Rhinoceros 3D Modeling software to draft and render designs for quoting process and fabrication

Caravan, LLC

Cofounder and Operations

Denver, CO

Oct 2024 - Oct 2025

- Managed a 5-person coding team to develop MVP of a road trip planning and navigation syncing app for iOS
- Handled backend operations, such as LLC setup, legal document drafting, trademarking, website dev, and finance
- Wrote business plan, conducted market research, and led seed fundraising to get to beta-test launch

Environmental Sciences Analytical Center, Brooklyn College

Brooklyn, NY

Federally Funded Research Internship

June 2023 - Aug 2023

- Researched lead contamination to fuel NYC clean soil initiative, engaging with communities across 5 boroughs
- Conveyed complex research findings to general audiences, building narrative scientific communication skills

57Hours

New York, NY and Remote

Customer Success and Sales Representative

May 2021 - May 2024

- Helped scale customer success and content platforms to propel startup to series A investment with over 3000% growth in 3 years
- Oversaw sales from contact to closing, crafting unique outdoor guided trips and developing storytelling skills
- Onboarded and trained new sales team members

Content Author

May 2021 - July 2023

- Authored engaging and informative blog content using SEO, focusing on high quality leads and conversion rate
- Researched new areas and interviewed local guides, business owners, and industry professionals

Rudy's BBQ

Colorado Springs, CO

Line Cook

Sep 2020 - Nov 2020

- Made some darn good BBQ (brisket, ribs, sausage, turkey, sides, desserts) and ensured the happiness of customers

Prospect Park Activity Group

Brooklyn, NY

Cofounder and Counselor

Jul 2020 - Aug 2020

- Founded a day camp during the COVID pandemic to get kids outdoors and create more free time for parents
- Managed customer relations with parents to ensure they were satisfied with the camp's services
- Developed an engaging schedule with games and activities to teach kids useful skills and get exercise
